

SAIKUMAR NADDUNURI

Automation Test Engineer | Microsoft Certified: AZ-900 | Coimbatore, India |
+918106853031 | naddunurisaikumar@gmail.com [LinkedIn Profile](#)

PROFESSIONAL SUMMARY

Quality Engineering professional with 3+ years of experience in high-scale web automation and functional testing. Expert in building **Java-Selenium** frameworks and **Cucumber BDD** suites. Proven track record of managing **1,000+ automation scripts** and maintaining a **>95% pass rate** across complex re-platforming projects. Microsoft Certified in **Azure Fundamentals (AZ-900)** with deep experience in **Jenkins CI/CD** and technical documentation via **Confluence**.

TECHNICAL EXPERTISE

- **Automation & Testing:** Selenium WebDriver, Cucumber BDD, TestNG, Page Object Model (POM), Selenium with C# & Java, Spec-Flow.
- **Languages & Tools:** Core Java, SQL, Maven, Apache POI, Postman (API Testing).
- **DevOps & Cloud:** Jenkins Pipelines, Microsoft Azure (AZ-900), Git, Azure TFS.
- **Monitoring & Collaboration:** Confluence (Documentation), Splunk (Log Analysis), Agile/Scrum.
- **Upskilling:** Playwright (Type script).
- **AI-Augmented Engineering:** GitHub Copilot and Claude for day-to-day development, debugging, and productivity; Claude Code for repository changes, pull request creation, and context-aware code suggestions.

PROFESSIONAL EXPERIENCE

COGNIZANT, Coimbatore | October 2022 – Present Quality Engineering & Assurance | Project: Lexis Nexis – RELX

- **Automation Scaling:** Engineered and maintained a suite of **1,000+ Automation Test Scripts** for Lexis Advance and Lexis+ AI, significantly reducing error detection latency.
- **Release Integrity (SRP):** Spearheaded **8 Search Re-platforming (SRP)** cycles, building smoke and regression suites from scratch (~600 TCs) and maintaining a **97% stability rate**.
- **CI/CD Ownership:** Managed daily analysis of **1,500+ automation tests** via **Jenkins**, ensuring pass percentages exceeded **95%** through proactive script maintenance and stakeholder reporting.
- **Defect Discovery:** Identified and logged **150+ project-specific defects** and **60+ ad-hoc defects** in high-complexity modules, preventing critical escapes to production.
- **Framework Documentation:** Authored and maintained comprehensive technical documentation and KT video libraries in **Confluence**, reducing team ramp-up time for new joiners.
- **Full Lifecycle Management:** Handled end-to-end test management including preparation of test plans, scenarios, and execution for Maintenance and Release (M&R) testing.

- **AI-Driven Development:** Utilized GitHub Copilot and Claude in day-to-day engineering tasks, and leveraged Claude Code for repository changes, raising pull requests, and generating context- and skill-aware code suggestions at a mid-level engineering standard.
- **Test Analysis Agent:** Built an AI-powered Test Analysis Agent that simplifies raw testing reports into a detailed, easy-to-read dashboard, improving visibility into test health for stakeholders.

CERTIFICATIONS

- **Microsoft Certified: Azure Fundamentals (AZ-900)**

EDUCATION

- **Masters in computer applications**
St. Johns Institute of science and technologies | 2024
- **Bachelor of Science (Computer Science)**
Chanda Kanthaiah Memorial Arts and Science College | 2021
